SUBJECT: RECORDS RETENTION

This All-County Letter is a reminder of the legal requirements for records retention and the identification of certain records which require extended retention periods.

A. Public Assistance Records

The Manual of Policies and Procedures (MPP) sets forth various retention periods for public assistance records. Generally, the regulations require that all public assistance (23-353), social service (10-119.2), and administrative claiming (25-815.38) records and their supporting documents be retained for three years from the date the State submits the last expenditure report to the Department of Health and Human Services (HHS). Case record material must be retained for three years after the date the last State expenditure report has been made to HHS for the period the records were last used to document eligibility. MPP Sections 23-353 through 23-356 set forth the requirements for certain records which have retention periods which vary from the general rule. While the regulations must be reviewed for a complete listing, the most common occurrences are listed below. Some records require retention periods of more than three years. These include:

1. Records and their supporting documents must be retained when there is an open Federal or State audit. This includes those Federal audits in progress and pending issuance of final reports listed on Attachment I, those unresolved Federal audits listed on Attachment II, and the State Controller's Office audits listed on Attachment IV.* Counties are to inform contractors providing social services to retain all necessary records for audits which have not been resolved/closed.

* Records retention periods vary among unresolved State audits. See special instructions at the beginning of each category of State Controller's Office audits listed in Attachment IV.

2. Case records in which criminal or civil litigation was involved are to be retained for three years after the final claim is submitted for Federal reimbursement. These records include those which were used in the determination of eligibility, including denials, for or the amount of retroactive benefits. Other records in the case must be retained in accordance with the requirements for public assistance records specified elsewhere in this letter. Attachment V lists court cases involving SDSS which require the extended retention period.
3. The Form ABCD 278L, List of Authorizations to Start, Change, or Stop Aid Payments (or its equivalent), which bears the original initials or the original signature of the delegated county employee who authorized the specific action is identified as one of the records and supporting documents which must be retained in accordance with the retention period for the case record material.
4. The County shall retain Form ABCD 278L or its equivalent for a period of 10 years following closure in all cases where notification to do so by the child support agency has been received.
5. County welfare warrants must be retained for five years. Warrant registers must be retained for 15 years.

Other records may be considered as nonessential and need not be retained in the case records. Listed below are examples of those documents which may be purged from the case records:

1. Documents or evidence (photocopies) provided by the recipient such as birth certificates and divorce papers may be purged (MPP Section 48-001.112) provided that there is a written record of the type of evidence and its pertinent content. This notation would normally be made in the case narrative. Original documents received should have been returned to the applicant/recipient.
2. Documents which were never used to document eligibility may be destroyed provided they have no potential of being used to take action on a case. For example, a note from an applicant canceling a meeting may be needed as evidence, should you determine a denial is appropriate based on noncooperation. However, once the meeting has taken place the note would be of no value and may be destroyed.
3. Records which were used to document eligibility may be destroyed provided three years have passed since the last state expenditure report for that period has been submitted to the HHS. These records must be retained longer when there are unresolved audits* or court cases.

Attachment III lists closed audit records which may be flagged for destruction.

* See footnote on page 1.

B. Food Stamp Records

There are two separate retention requirements for Food Stamp Program records. First, all program records are to be retained for a period of three years from the month of origin. Second, all fiscal records and accountable documents are to be retained for three years from the date of fiscal or administrative closure. This means that records such as, but not limited to authorization documents, cashier's daily reports, Notices of Change, Form FNS-250s (Food Coupon Accountability Report), HIR cards, and tally sheets shall be retained for three years. However, any documents or records which are involved in any billing or claim shall be retained for three years from the date of fiscal or administrative closure. For example, FNS-250s which do not result in a billing against the state agency shall be retained three years from the month of origin. But, FNS-250s which result in a billing must be retained for three years from the date that obligations for or against the federal government have been liquidated. Also, any records or documents which are involved in a fiscal audit* or investigation must be retained for three years from the date the audit or investigation is closed. To illustrate this point further, if an FNS-250 which originated prior to April 1986 had fiscal liabilities which were not settled until July 1988, that FNS-250 cannot be destroyed until August 1991. But, on the other hand, if the same FNS-250 had no fiscal involvement, it could be destroyed as of May 1989. Attachment III lists closed audit records which may be flagged for destruction.

Some records require retention periods of more than three years. These include:

1. Food Stamp records that are a part of an assistance case record must be retained in accordance with MPP Chapter 23-350. (See Part A of this letter.)
2. Records and their supporting documents for which there is an open Federal or State audit must be retained. This includes those federal audits in progress and pending issuance of final reports and the unresolved audits* listed on Attachments I, II, and IV.
3. Case records in which criminal or civil litigation was involved are to be retained for three years after the final claim is submitted for Federal reimbursement. Records which must be retained include those documents which were used in the determination of eligibility (including denials) and those used to determine the amount paid as retroactive benefits. Other documents in the case record must be retained in accordance with the requirements for public assistance records specified elsewhere in this letter. Attachment V lists court cases involving SDSS which require the extended retention period.

* See footnote on page 1.

C. Title IV-D Child Support Records

Federal regulation 45 CFR 74.21 requires records to be retained for three years from the starting date specified in 45 CFR 74.22. That regulation states that the starting date for the retention of (Title IV-D) records begins on the day that the grantee (SDSS) submits its expenditure report for the last quarter of the Federal fiscal year. In other words, Federal regulations require closed case records to be retained for three years after the date that the last quarter's State expenditure report is made to the Federal Government for the Federal fiscal year that the records were closed. More simply, case records must be retained for a maximum of four years and four months (the normal period of time that would occur between the date a case is closed and the date SDSS would submit its last quarter's expenditure report for the Federal fiscal year that the case was closed).

Federal regulation 45 CFR 74.21 sets forth the requirements for certain records which have retention requirements which vary from this general rule. Some records require a longer retention period. These include:

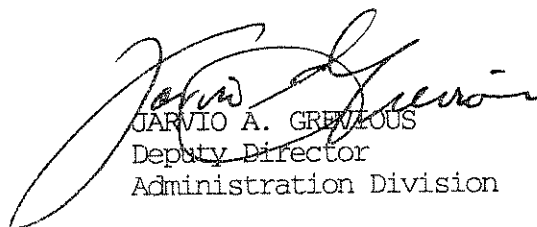

1. Records and their supporting documentation must be retained when they are the subject of an open Federal or State audit.
2. Records and their supporting documentation must be retained when they are the subject of pending civil litigation or when court orders require extended retention periods.

It should be noted that the Federal Government has authority to audit records, regardless of their age, for as long as they are retained.

The provisions of this letter are for the fiscal purposes of SDSS and do not authorize the destruction of those records which have a longer retention period required by other laws/regulations, court cases, or unresolved audits.*

The retention periods are the same for paper and microfilm records. For the conditions on the substitution of microfilm for paper records please refer to ACL 85-34.

Please submit any comments or questions regarding records retention to Jeff Smith, Records Management, 744 P Street, M.S. 7-179, Sacramento, CA 95814, or call (916) 657-1914.
